

## Arduino vs Avr

	<u>Arduino</u>	<u>AVR</u>
get started		<a href="https://www.youtube.com/playlist?list=PL9B4edd-p2ajRbjkjMuTt8lz_VeE8IKva">https://www.youtube.com/playlist?list=PL9B4edd-p2ajRbjkjMuTt8lz_VeE8IKva</a>
<u>Pros</u>	<u>Easy to learn</u> <u>Easy to program</u> <u>Has many resources to learn</u>	<u>New experience for most of us</u> <u>Cheap</u>
<u>Cons</u>	<u>Expensive relative to Avr</u> <u>Does not commonly use in real industry</u>	

### Recommendation :

Actually I prefer to use Arduino as it has many resources and we can get any difficult code form internet easily .
